

## **This Thing We Call Time**

by June

What is time?

Yes, it is many things.

It can be like people say

Just a moment

Just a minute

Just a memory

Just a lifetime

Just a dream

Whose dream?

Whose life?

Yours or mine

Or everybody's

That is handed down to us

in strange ways

that we find almost unbelievable

and hard to understand

It comes from people we haven't really known

on a personal level

yet we get a form of communication

and inspiration

that there is no limit set

on all our time

now and for ever

Amen
